R.G. Associates, Inc.**Investment Objective**

The R.G. Associates, Inc. strategy pursues capital appreciation through a value-oriented approach to investment in equities of larger-capitalization domestic companies.

The Portfolio

R.G. Associates, Inc. employs a bottom-up strategy to investment. Investments are sought in companies with a demonstrated ability to generate sustainable and high returns on assets and common equity. The holdings are concentrated in a small number of meaningfully-sized positions. The total number of holdings is usually less than twenty. This creates a focus on the best investment ideas, but also may leave accounts exposed to more company-specific and industry-related risk.

Investment Process

R.G. Associates, Inc. screens for investment candidates primarily based on their cash operating returns on assets, while giving consideration to returns on equity, financial leverage and valuation. Intellectually honest accounting is also a key consideration in the investment process, as financial reporting is the most crucial communication between a firm's management and its shareholders. A key attribute of the Firm's style of value investing: a long holding period. This puts time on the side of the investor, and helps to minimize portfolio transaction costs.

R.G. Associates, Inc. Composite Performance contains fully discretionary accounts that follow a value-oriented strategy, with an emphasis on low turnover and high concentration among holdings. For comparison purposes the composite is measured against the S&P 500 index.

R.G. Associates, Inc. is a Maryland-registered investment advisor, founded in 1992. The firm provides investment management services chiefly to individuals, in both taxable and tax-exempt accounts, investing primarily in common stocks. The firm maintains a complete list of composite descriptions, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using a fee of 100 basis points per year (applied quarterly) for the period January 1, 1995 through December 31, 2000, and 90 basis points for the period January 1, 2001 through December 31, 2003. As of January 1, 2004 actual fees are used to calculate performance. For non-fee paying accounts, the highest fee of .225% is applied on a quarterly basis to calculate a net return. The annual composite dispersion present is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Additional information regarding policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The investment management fee schedule for the composite is 0.90% on beginning of period assets.

The R.G. Associates, Inc. Composite Performance was created March 15, 1996. R.G. Associates, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. R.G. Associates, Inc. has been independently verified for the periods May 29, 1992 through December 31, 2018. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The R.G. Associates, Inc. Composite Performance has been examined for the periods May 29, 1992 through December 31, 2018. The verification and performance examination reports are available upon request.
